CAUTION

<For your safety> • Refrain from contacting your eyes or long terms to your skin. • Our HUBY swabs are designed exclusively for industrial use only. Therefore do not use them neither NON-industrial use nor medical use. <Storage Conditions> • Please store at room temperature <validity period> 4 years from our production (Interpretation from LOT No.) <Disposal> Please keep distance from fire since they are cotton and paper based products and so in the place of low humidity, they might be flammable and cause of fire. <Condition of use and sale> All matters have been described, the technical information and recommendations have based on our trust experiment and analysis. However there is no meaning of we guarantee them of complete neither accuracy nor safety. We will take responsibility of inferiority, we will only replace the failure one, and we will not responsible for damage or patent infringement cause of the handling of our products. Before the usage, please test our product before you use in mass production and take your own risk and responsibility as well. All data on this catalogue will be changed without notice.

Quality of HUBY

Since 1990, HUBY-340 has become the pioneer of a broad variety of cotton swabs for industrial use and has had a majority of share in this market. HUBY-340 continually updates their operations to fulfill the demands of expanding market. The features of HUBY-340 are as follows.

Feature

Highly absorbent & absorbency speed

Highly absorbent & absorbent speed is a feature of selected 100% pure cotton for industrial use. (Cellulose)

Lint-less

Special processing to card, coil cotton and form cotton tips by our developed machinery can produce Lint-less cotton swabs.

NVR (Non-Volatile residue)

As per your request, NVR test data with solvents such as DI water, IPA, and Acetone is available.

Silicone Free

Silicone does not include in our cotton swabs and packages.

Consistency under precise specification

Under precise specification, all the products are continuously monitored by inspectors and automatic check.

RoHS, REACH and Certificate of Non-Applicability

- RoHS → supported
- REACH → supported
- Certificate of Non-Applicabilityx → supported

ISO9001

Experienced production lines qualified for ISO9001; 2008.
